

Liquid Propane Gas (LPG) Fee Abatement Chart for 2008 Tabs

Things to keep in mind when using this chart...

- "Weight" means "declared gross weight" for motor vehicles licensed according to gross weight (such as TRK, COM, etc), or "scale weight" for all other motor vehicles (such as PAS, M/H, CYC, etc).
- "LPG" fuels include propane, natural gas, and butane.
- Add \$5 LPG handling fee each registration year (if licensing for more than 12 months, a \$10 LPG handling fee would be due).
- A Washington State Patrol Inspection is NOT required when changing from one type of fuel to another.
